

CAT

You will need:

- 10 White sticks
- 1 Black stick
- 1/4 Neon Green stick
- 1/4 Yellow stick
- 1/4 Hot Pink stick

Crimper Cutter 

1

Step 1:

Begin by folding a white stick over itself into thirds for the base of the body. Then fold one white stick over the body at each end for the legs as shown.

2

Step 2:

Fold another white stick in half, and press onto the body with the back half sticking off to become the tail.

3

Step 3:

Do the same process on the other end of the body to create the base for the neck & head. Add one more white stick to the front in the same way.

4

Step 4:

Wrap the whole body, neck & head with white sticks (10 total).

5

Step 5:

Shape another piece into the ears on top of the head, and use the excess to fill out the face and create a snout.

6

Step 6:

Use a small piece of hot pink to create a collar around the neck. Use a tiny piece of yellow to complete the collar.

7

Step 7:

Use two more small pieces of pink to fill in the ears.

8

Step 8:

Use two small pieces of neon green to create eyes as shown with tiny pieces of black in the middle. Shred 1/4 black stick into thin sticks and use to create whiskers. Use a small piece of hot pink to make the nose as shown.
