- 1/8 Pink stick
- 1/8 White stick
- 1/2 Black stick

Scissors

Step 1:

Fold 1 neon green stick into 3 sections as shown and twist together. Use 2 small pieces of yellow (about 1/8 of a stick for each piece) and press onto the green twist in upside-down "U" shapes. These will be the bird's feet.

Step 2:

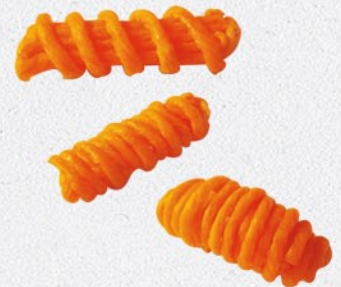

Hold two orange sticks and fold them in half, together, then in half again to make a bundle.

3

Step 3:

Wrap this bundle with 3 more orange sticks to make a thick body.

4

Step 4:

Bunch up one orange stick and roll between palms to make a small ball for the head. Wrap this ball in one more orange stick and press the head onto the body.

5

Step 5:

Use one yellow stick for the beak by cutting it into two pieces (2/3 and 1/3). Coil these two pieces into triangles and trim off one side with scissors, then press onto head as shown.

Step 6:

Cut 1/8th portion off of yellow, white, blue and pink. Peel each of these apart (like string cheese) into 4 sections each. You will use these pieces later on the wings, hair and tail.
