

## POODLE

### You will need:

11 Brown sticks  
 3 White sticks  
 1 Hot Pink stick  
 1 Black stick  
 1/4 Neon Yellow stick  
 Bendamodel™ Figure

Scissors 

**1**

### Step 1:

Start by wrapping one Bendamodel™ figure with 10 brown sticks. Remove the plastic tail-piece from the Bendamodel™ figure before you start wrapping it. Start at the head and work towards the back.

**2**

### Step 2:

Wrap the legs last using one brown stick for each leg. Use the excess on each leg to create a paw at the bottom of the leg.

**3**

### Step 3:

Make a tail by folding 1/2 brown stick in half, then wrap 1/2 white stick around the end to form a ball.

**4**

### Step 4:

Cut 1 white stick into 4 pieces. Use each piece to add white fur above each paw as shown. Next create the ears and fur on top of head. Coil in the ends of one white stick into two long ovals and press on top of the head. Then use 1/2 piece of white to coil into the shape of the fur puff on top of the dog's head as shown.

**5**

### Step 5:

Use 1/4 stick of hot pink to wrap around the neck forming a collar. Use a small piece of neon yellow coiled up to form the dog's tag. Press this onto the collar.

**6**

### Step 6:

Use small pieces of white and black to make the eyes and nose as shown.

**7**

### Step 7:

Cut two pieces of hot pink about 1/2 inch long. Bend in both ends of these sticks towards the middle to form bows. Press bows onto the top of each ear.

Shred a small piece of black into a thin strand. Press onto the bottom of the head to create a smile.
